## How We Compare

### Us versus Them

You can choose any shipping company to deliver a box or two, but there's only one choice for a shipping company that understands events inside out. We know events. We know shipping.

### Us versus

That big brown truck may be a familiar sight, but when's the last time your UPS driver offered to kit your items prior to delivery? Whatever you need, that's what we do. We're more than shipping; we are events shipping.

### Us versus FedEx

Need it overnight, every night, or every other Wednesday night? We'll deliver on your schedule, not ours. We work for our clients; you make the calls, we do the work. You get your inventory when you want it, where you want it, and how you want it.

### Specialized Shipping for Events Success

What do we have that the big shipping companies don't have? We have a staff that's dedicated not just to success, but to success in the events industry. We have a warehouse facility that is designed for events logistics; we don't just store boxes, we house your vehicle fleet, provide pre-event training areas, and have a dedicated space for kit assembly.

### Your Wish Is Our Command

We know that timing is everything in the events industry; that's why we work around your schedule instead of forcing you to work on ours. We guarantee the two elements that matter most in events: flexibility and dependability. You don't have to change to suit our shipping schedule; we ship to suit your event.

### Small Company, Big Abilities

Tired of spending hours on an automated customer service line? Tired of working with a company too big to remember who you are? We're small enough to care but big enough to deliver. We have the resources. We have the experience. We have the big-name clients. But we also have a small-business approach; we know our clients and we make a personal investment in every delivery.

***Choose the company that works for you; choose Events Direct.***
